Bayerisches Rauchbier

Style: Rauchbier (“Smoke Beer”)

A traditional smoked beer. A *heavy* addition of smoked malt adds *obvious* smoke flavor and *lots* of deep complexity as well. A unique beer best suited for those already familiar with the style... Be forewarned... *this is smoky!*

Ingredients

GRAINS	AMOUNT	EXTRACTS	AMOUNT	HOPS & SPICES	AMOUNT
Smoked	1.75 lbs.	Pale	1.75 qts.	Bittering Hops	
Cara-Pils	0.33 lbs.	Super Light	0.75 qts.	Hallertau	1.25 oz.
Black	0.33 lbs.				
Chocolate	1.5 oz.			Finishing Hops	
Pale	1.5 oz.			Hallertau	.75 oz.
				Irish Moss	1 Scoops

Yeast Type: Saflager **Yeast Description:** A neutral / clean fermenting lager yeast.

Brewing Instructions

- 1 Make sure your kettle is between 160° - 170°. Place all crushed grains into a grain sock and steep in the pot for 30 minutes, making sure to maintain the temperature indicated. After grains have steeped, drain and discard sock.
- 2 Raise the heat under your pot. When the temperature is approaching 200°, add all of your extracts and sugars (except the priming sugar!). Stir well. Wait for pot to reach a boil. **NEVER LEAVE YOUR POT FROM THIS POINT ON!**
- 3 When kettle reaches a boil, temporarily turn the heat off and add your bittering hops. Immediately return to a heavy, rolling boil for 60 minutes. Make sure to stir your wort regularly throughout the brewing process so it doesn't scorch.
- 4 When there is 15 minutes left in the boil, temporarily turn off your heat again and add your finishing hops. Return to a light boil. Any spices or special ingredients are typically added now (refer to ingredient list above).
- 5 After last 15 minutes of boiling, turn heat off and chill wort. When wort is around 70°- 90° pour into a fermenter and pitch yeast. That's it! Refer to more detailed brewing and bottling instructions if needed (available upon request).

Recipe will yield approximately 2 cases of 22 oz. or 12 oz. bottles. Brewing, fermenting, and conditioning times may vary depending on recipe, yeast, temperatures, and brewing experience.
