

Homebrew  
5 Gallons

## Northern Canadian Ale

Style: Canadian Ale

This is our version of Molson Golden. Although Molson Golden is technically a blend of ale *and* lager, this brew uses only British ale yeast and comes about as close as a homebrewer can to this popular style. Clean, dry, and malty.

## Ingredients

<u>GRAINS</u>	<u>AMOUNT</u>	<u>EXTRACTS</u>	<u>AMOUNT</u>	<u>HOPS &amp; SPICES</u>	<u>AMOUNT</u>
Crystal 20L	0.25 lbs.	Super Light	2.25 qts.	<b><u>Bittering Hops</u></b>	
Pale	0.75 lbs.	Adjunct	0.25 qts.	Hallertau	0.75 oz.
Cara-Pils	0.25 lbs.			<b><u>Finishing Hops</u></b>	
Flaked Corn	0.5 lbs.			Hallertau	0.25 oz.
				Irish Moss	1 Scoops
				<b><u>Dry Hops (Do not put in kettle!)</u></b>	
				Hallertau	0.25 oz.

**Yeast Type:** British Ale **Yeast Description:** Produces malty, clear beers with a hint of fruitiness.

## Brewing Instructions

- 1** Make sure your kettle is between 160° - 170°. Place all crushed grains into a grain sock and steep in the pot for 30 minutes, making sure to maintain the temperature indicated. After grains have steeped, drain and discard sock.
- 2** Raise the heat under your pot. When the temperature is approaching 200°, add all of your extracts and sugars (except the priming sugar!). Stir well. Wait for pot to reach a boil. **NEVER LEAVE YOUR POT FROM THIS POINT ON!**
- 3** When kettle reaches a boil, temporarily turn the heat off and add your bittering hops. Immediately return to a heavy, rolling boil for 60 minutes. Make sure to stir your wort regularly throughout the brewing process so it doesn't scorch.
- 4** When there is 15 minutes left in the boil, temporarily turn off your heat again and add your finishing hops. Return to a light boil. Any spices or special ingredients are typically added now (refer to ingredient list above).
- 5** After last 15 minutes of boiling, turn heat off and chill wort. When wort is around 70°- 90° pour into a fermenter and pitch yeast. That's it! Refer to more detailed brewing and bottling instructions if needed (available upon request).

Recipe will yield approximately 2 cases of 22 oz. or 12 oz. bottles. Brewing, fermenting, and conditioning times may vary depending on recipe, yeast, temperatures, and brewing experience.
